A Molecules & Materials

A1 Protein–ligand complex

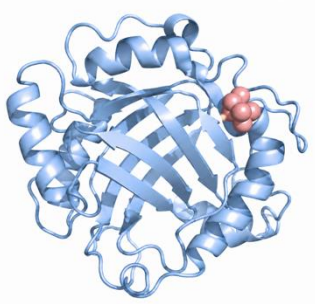

A2 MOF structure

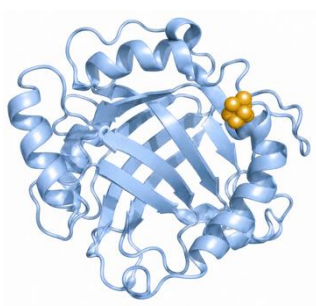

A3 Protein structure

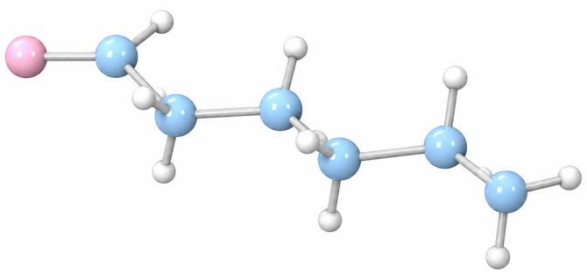

Wild

Mutant

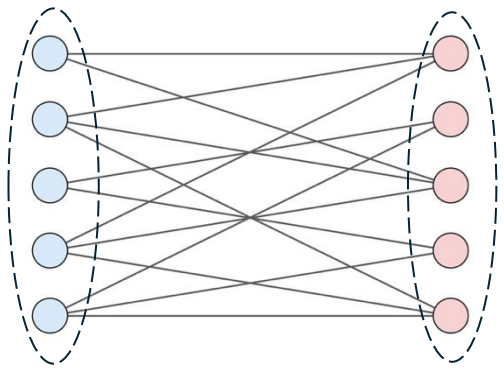

A4 Small molecules

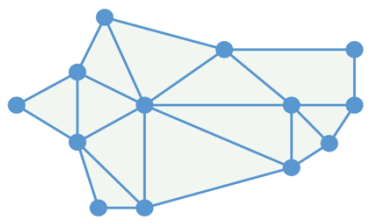

B Mathematical domains

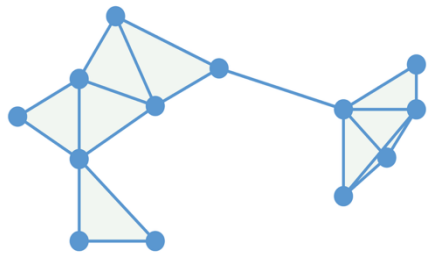

B1 Bipartite graph

B2 Simplicial complex

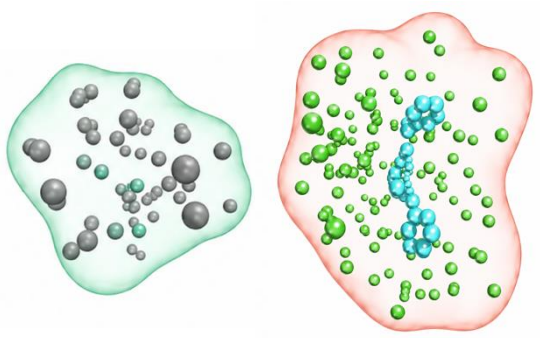

Vietoris-Rips complex

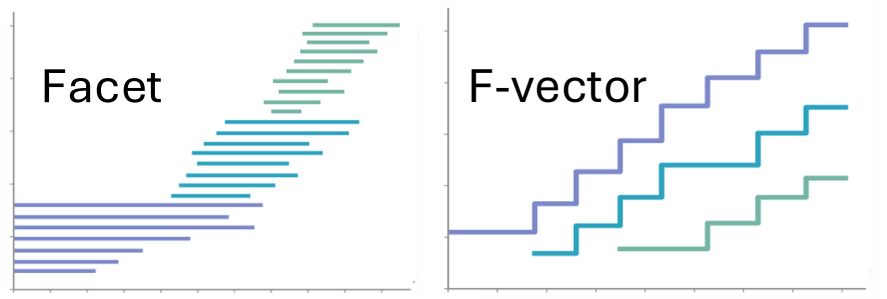

Alpha complex

B3 Differentiable manifold

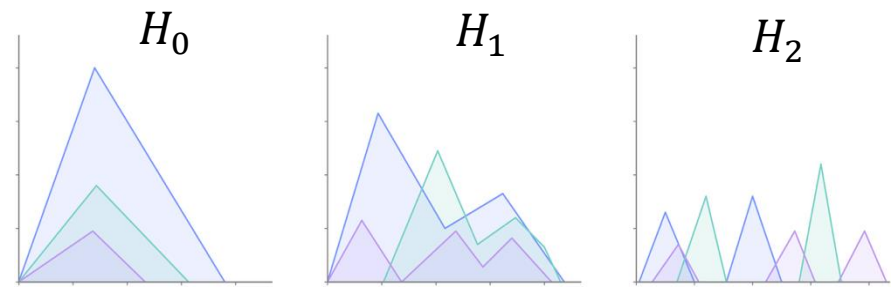

C Mathematical modalities

C1 Commutative algebra

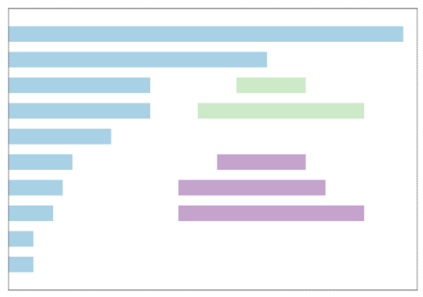

C2 Persistent homology

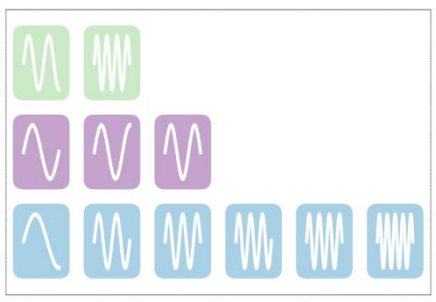

C3 Persistent Laplacian

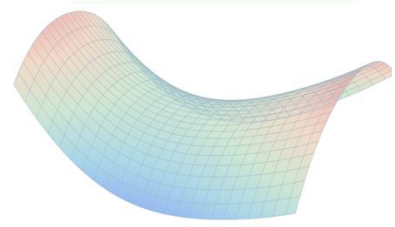

Harmonic spectra

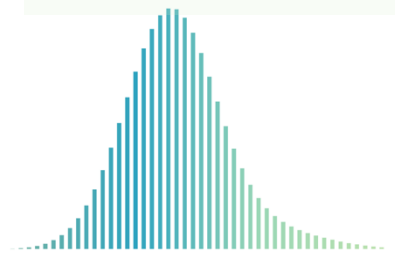

Nonharmonic spectra

C4 Element interactive curvature

C5 Forman persistent Ricci curvature

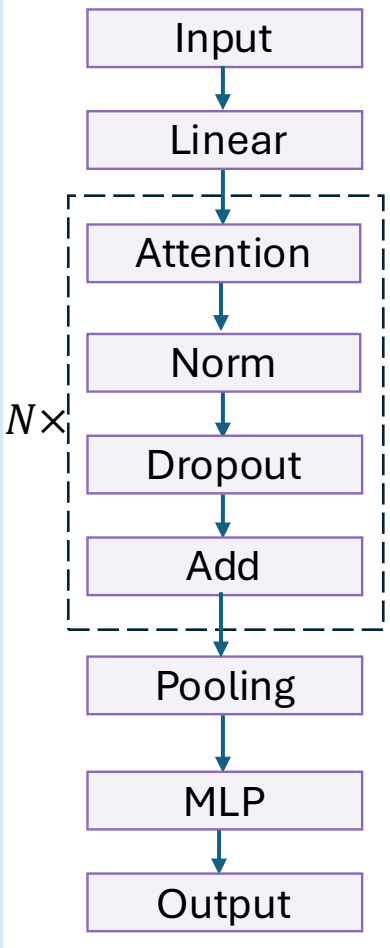

D Deep learning architectures

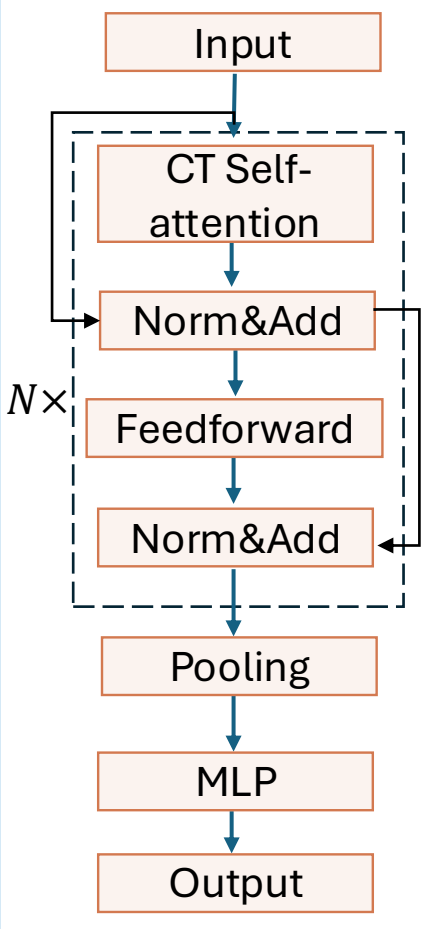

Topological neural architectures

Conventional neural architectures

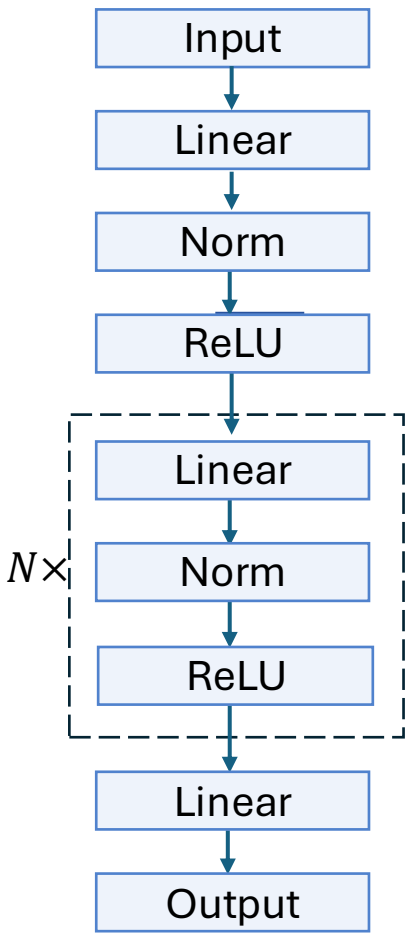

D1 Simplicial neural network

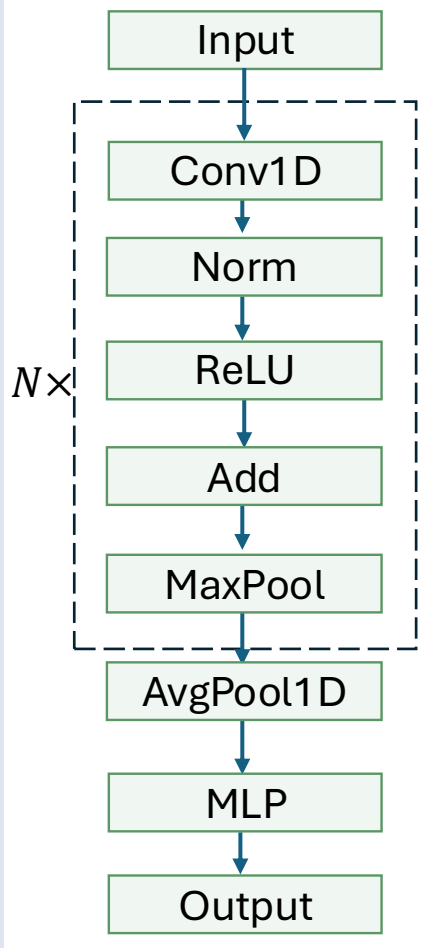

D2 Copresheaf transformer

D3 Artificial neural network

D4 Convolutional neural network

E Consensus prediction

Modality-architecture base models
